Sample Submission Form**

Date:	Principal Investigator:
--------------	--------------------------------

Contact Person, phone number, and email address (submitted by):

Your gel designation/experiment name:

Species: Human Mouse Other:

Description of Samples, and the experiment (your sample preparation):
 For MALDI analysis of purified samples in solution, please indicate solution content (water, ethanol, etc ? salts ?).
 All LC/MS samples need to be in **aqueous** solution, SDS-PAGE (gels) need to be equilibrated in **WATER**.
 If this is a recombinant protein (construct), please email the expected form in the amino acid sequence (gel single letter code), including any cloning artifact or affinity tag, N-terminal to C-terminal.

Type of analysis requested: MALDI, or LC tandem MS

	Sample identifier (lane, marked gel band 1, 2, etc).	Estimated MW (for MALDI)
